WORK EXPERIENCE

Freelance Full Stack Developer 📍 Nashik, MH

2024 – Present

React · Next.js · Flutter · Firebase · Tailwind CSS

- Delivered 5+ web projects for student startups and small businesses, including landing pages, dashboards, and multi-page apps using React and Next.js.
- Maintained consistent client satisfaction with on-time delivery; received positive feedback across all projects.
- Built and deployed responsive UIs, integrated REST APIs, and set up Firebase Authentication and Firestore for client projects.

Google Gemini Student Ambassador — Ping Network 📍 Nashik, MH

2025 – Present

Community & Technical Outreach

- Conducted campus workshops and live demos on Gemini AI tools, practical prompt engineering, and API integration for a 100+ student audience.
- Created hands-on learning resources and guided peers in building AI-integrated apps using the Gemini API.

PROJECTS

LegalEase AI — Legal Document Analyzer

[GitHub](#) 🔗

React · TypeScript · Firebase · Gemini AI · Tailwind CSS

- Built a full-stack web app enabling users to upload PDF contracts and receive plain-language summaries, risk highlights, and bilingual (English/Hindi) output powered by Gemini AI.
- Implemented real-time AI chat so users can ask follow-up legal questions grounded in their uploaded document context; integrated a lawyer-locator feature based on document type and user location.
- Frontend built with React + TypeScript + Tailwind CSS; backend logic via Firebase Cloud Functions.

Student Financial OS — College Finance Manager

[GitHub](#) 

Flutter · Firebase · Riverpod · Cloud Functions · Gemini AI

- Designed and shipped a finance management app for Indian college students — expense tracking, bill splitting, and savings goals with irregular income patterns in mind.
- Integrated Gemini AI to generate personalized weekly spending insights; automated monthly financial reports via Firebase Cloud Functions delivered through in-app notifications.
- Winner — SummerHacks at ITM Skill University (1st Runner-Up) using this project as the hackathon submission.

CARE-AI — AI-Powered Parenting Companion

[GitHub](#) 

Flutter · Firebase · Gemini AI · Hive · FCM

- Built an offline-first Flutter app for families of children with developmental disabilities, featuring Gemini AI chat for therapy guidance, medication reminders via Firebase Cloud Messaging, and real-time doctor-parent coordination via Firestore.
- Presented live at multiple public events and demonstrated on Google Cloud platforms to community audiences.

KumbhSaathi — Pilgrim Safety App

[GitHub](#) 

Flutter · Firebase · Riverpod · OpenStreetMap · Gemini AI

- Developed a safety and navigation app for Kumbh Mela pilgrims — multilingual AI voice assistant, real-time crowd heatmaps, SOS alerts, lost & found system, and family location tracking.
- Integrated OpenStreetMap for fully offline navigation and Firebase Realtime DB for live group positioning in low-connectivity conditions.
